

LIVE AUCTION

ALEXA KING WILL CREATE
A UNIQUE BRONZE OF YOUR CHOICE

Alexa King's work has been auctioned at Sotheby's and Christies and is collected by prominent American families. Most recently, the Barbaro Memorial Sculpture is the culmination of a life time of studying movement in animals. Her breath of experience in depicting the movement of a Thoroughbred horse has made it possible for Alexa to elevate a two thousand pound 1.25 life size horse and jockey sculpture completely off the ground. Barbaro was finished and installed April 26, 2009 at Gate One, Churchill Downs.

Barbaro sculptor Alexa King will create for you a sculpture of your choosing. The bronze will be approximately 12" by 18" for a full body of a horse, dog or subject of your choice. The winning bid includes design and creation of the sculpture. Alexa can work from photographs or life studios. For examples of Alexa King's work please check her web site; alexakingstudios.com
